Premessa

Il presente dossier di *Europa.doc* riporta i risultati di una ricerca condotta su *Ulrich's International Periodicals Directory* presso la Biblioteca di documentazione europea del CNR¹. Scopo della ricerca è stata l'individuazione delle pubblicazioni periodiche "attive", quindi ancora edite, che affrontano alcune delle tematiche cardine di cui si occupa l'ISFOL: formazione e politiche attive del lavoro.

Le stringhe di ricerca utilizzate per recuperare i titoli dei periodici sono state: **education, vocational training, educational counselling, educational guidance, employment**. Nel caso della ricerca condotta utilizzando il termine *employment* è stato deciso di delimitare il campo e filtrare così i risultati secondo un criterio di competenza geografica usando i nomi dei paesi: Est-Germany, France, Italy, Spain, United Kindom, West Germany. Dall'insieme ricavato sono stati inoltre eliminati i periodici a carattere locale, decisione resa necessaria soprattutto in relazione alla realtà statunitense, in quanto la stringa *employment* entrava eccessivamente nel dettaglio delle diverse realtà occupazionali degli Stati federali.

Le schede dei singoli periodici sono state ristrutturare in 14 campi, alcuni dei quali contenutistici, come *subjects* ed *abstract*, altri gestionali ma comunque ritenuti utili in ottica di recupero effettivo e cartaceo della documentazione. L'indice che viene proposto è geografico essendo già la ricerca fortemente caratterizzata sotto un profilo tematico.

I periodici presentati in questa ricerca non sono disponibili presso il front desk del CDS Isfol.
