

**Convention No. 137: Dock Work, 1973**  
**Direct request 2003/74**

---

**Italy** (ratification: 1981)

The Committee notes the detailed information supplied in the Government's report received in November 2002 and the observations forwarded by CONFINUDSTRIA indicating that the only outstanding question is the lack of detail at contractual level of remuneration per day when the worker is not assigned to work, which concerns temporary dockworkers belonging to firms authorized exclusively under section 17 of Act No. 84/1994, as amended (*Disciplina della fornitura del lavoro portuale temporaneo*). It would appreciate it if the Government would also include in its next report details on the manner in which the national policy encourages continuous or regular employment for that category of dockworkers (*Article 2 of the Convention*).
