## STORIES OF INTEGRATION PATHWAYS

### *Ahmed Haj Ali*

Ahmed arrived in Italy from Tunisia in 2022 at just 17. After settling in a youth community in Brindisi, he studied, learned Italian, and started building his future. At 18, he began a six-month internship in a metalworking company, a job he had dreamed of since childhood. His commitment paid off: the company hired him permanently, and today he proudly works as a skilled metalworker, determined to keep improving and grow professionally.

### *Kalissa Ibrahima Sory*

Kalissa came from Guinea in 2022 after a long and difficult journey. In Italy, he focused on school, learned the language, and quickly returned to what he already knew: mechanics. Thanks to an internship in a car repair shop in Rende, he proved his skills and earned a real job. Today he works repairing cars, lives independently, and values the respect and teamwork he found in his workplace.

## STORIES OF INTEGRATION PATHWAYS

### ***Mahmoud Said***

Mahmoud arrived from Egypt in 2023 after crossing many countries before reaching Italy. Once he turned 18, he had to leave the youth community, but he didn't stop. He moved to Ancona, found housing and work, and gained experience in construction and metalwork. Today he works in naval carpentry, building ship components, proud of his job and focused on learning more, while still dreaming of opening a restaurant one day.

### ***Moustafa Ibrahim***

Moustafa came from Egypt in 2022 when he was only 16. After arriving in Italy, he studied and started working immediately, first as a deli worker and later as a baker. Even though those jobs were not his dream, they helped him grow and adapt. Today he works as a plumber, a job he enjoys and is learning step by step. With supportive colleagues and steady work, he has found independence and a path forward.

## STORIES OF INTEGRATION PATHWAYS

### ***Salif Guiro***

Salif arrived from Ivory Coast in 2017 at 16, after crossing several countries and the sea. In Padua, he studied Italian at night while working during the day. He trained as a metalworker and became skilled in building gates and fences, a job he still does today. While he is proud of his work, his biggest goal is to return to studying - especially agriculture - so he can one day use his knowledge to support his family's land and build a stronger future.
